

Curriculum

4.01

Evaluation of each academic program of the college should be undertaken periodically to provide faculty, administration, and the board of trustees with information about how well the program functions in relation to its objectives and the needs of the five-county service area. It may provide justification for actions of the following kinds:

1. Confirmation of the validity of the program and continuation of support for it.
2. Reconsideration and possible redefinition of the goals, purposes, and objectives of the program.
3. Review and alteration of the content and structure of the program.
4. Reconsideration of priorities and allocation of resources.
5. Redefinition of roles and reassignment of individuals.

An academic program is a course of study leading to a certificate of completion, an associate degree, or is intended to provide the first two years of a major leading to a baccalaureate degree. Program evaluation is a process to assess the overall effectiveness of a program through systematic collection and analysis of data.
